

Project Development Phase:

Project Flow

1. Milestone 1 : Creation of developer account
2. Milestone 2 : Object Creation
3. Milestone 3 : Tabs
4. Milestone 4 : The Lightning App
5. Milestone 5 : Fields & Relationships
6. Milestone 6 : Roll-up Summary
7. Milestone 7 : Flows

Implementation

Milestone 1 - Salesforce developer account creation :

Activity 1: Creating Developer Account:

Creating a developer org in salesforce.

1. Go to <https://developer.salesforce.com/signup>

Build for the Agentic Enterprise. Sign up for your Developer Edition.

The entire Salesforce platform - exposed as APIs, MCP tools, and CLI commands. Build apps, ship agents, and let coding agents do the heavy lifting with Salesforce Headless 360.

- ✓ Build AI agents with Agentforce, grounded in your data with Data 360
- ✓ Connect Claude Code, Cursor, or Codex to your org with hosted MCP
- ✓ Build in the browser with the Agentforce Vibes IDE - no setup required
- ✓ Drag-and-drop when you want it, Apex when you need it
- ✓ 60+ MCP tools and 30+ coding skills, ready out of the box

Sign up for your Developer Edition

A free Salesforce Platform environment with Agentforce and Data 360

First name: Janani ✓ Last name: S ✓

Job title: Developer ✓ Company: Thiruvalluvar university ✓

Country/region: India ✓ Work email: jananijss847@gmail.com ✓

☒ I agree to the [Main Services Agreement - Developer Services](#), [Salesforce Program Agreement](#), and [API Terms of Service](#)

Your free trial may be provisioned on or migrated to Hyperforce, Salesforce's public cloud infrastructure.

I acknowledge, as described in the Developer Documentation: (1) the Developer Edition includes autonomous and other generative AI features; and (2) Salesforce may limit use of those features and the org, and may terminate any org that has been inactive for 65 days.

We value your privacy. To learn more, visit our [Privacy Statement](#).

Sign me up

- 1) First name & Last name

- 2) Email
- 3) Role : Developer
- 4) Company : College or Company Name
- 5) County : India
- 6) Postal Code : pin code
- 7) Username : should be a combination of your name and company This need not be an actual email id, you can give anything in that format :

username@organization.com

Click on sign me up after filling these.

Activity 2: Account Activation :

1. Go to the inbox of the email that you used while signing up. Click on the verify account to activate your account. The email may take 5-10mins.
2. Click on Verify Account.

3. Give a password and answer a security question and click on change password

Get Started

Milestone 2 - Object Creation

Activity 1 : Player Object

1. In your Salesforce org, click gear icon on the top left and select Setup to open Setup.

2. Click the Object Manager tab. If you don't see it, enter Object Manager in the Quick Find box.

3. On the Object Manager page, click Create | Custom Object.

1. From the setup page → Click on Object Manager → Click on Create → Click on Custom Object.
 - **Label:** Player
 - **Plural Label :** Players
 - Enter Record Name Label and Format
Record Name : Player Name
Data Type : Text
 - **In Optional features :** check the boxes for Allow Reports | Allow Activities | Track Field History.
 - **Search Status :** check the box for Allow Search.
 - Save

Activity 2 : Match Performance Object

1. From the setup page → Click on Object Manager → Click on Create → Click on Custom Object.
 - **Label :** Match Performance

- **Plural Label** : Match Performances
- Enter Record Name Label and Format
Record Name : Match Performance Name
Data Type : Text
- **In Optional features** : check the boxes for Allow Reports | Allow Activities | Track Field History.
- **Search Status** : check the box for Allow Search. ● Save.

Milestone 3 - Tabs

Activity 1 : Custom tabs creation

1. Go to setup page → type Tabs in Quick Find bar → click on tabs → New (under custom object tab)
2. Select Object(Player) → Select the tab style → Next (Add to profiles page) keep it as default → Next (Add to Custom App) uncheck the include tab .
3. Make sure that the Append tab to users' existing personal customizations is checked.
4. Click save.

Repeat the same steps for Match Performances

Milestone 4 - The Lightning App

Activity 1 : Create a lightning app

1. Go to setup page → search “app manager” in quick find → select “app manager” → click on New lightning App.

2. Fill the app name in app details and branding as follow
App Name : CRICKSTATS
Developer Name : Auto Populates
Add image optional (if you want to give any image you can otherwise not mandatory) - Add Primary color Hex or leave it to default.
Then click Next.

3. In App options
Navigation style : Standard navigation
Setup experience : setup
Supporters form factors : Desktop and phone
Then click Next

4. In Utility items
Utility Bar alignment
: Default Then click
Next.

5. Navigation items
Select the created Custom Objects and required standard objects

- Players
Match Performances
Reports
Dashboards

Navigation Items

Choose the items to include in the app, and arrange the order in which they appear. Users can personalize the navigation to add or move items, but users can't remove or rearrange navigation items available only for phone or only for desktop. These items are dropped from the navigation bar when the app is viewed in a format that the item doesn't support.

The screenshot shows the 'Navigation Items' configuration interface. It consists of two main panels: 'Available Items' on the left and 'Selected Items' on the right. The 'Available Items' panel has a search bar with the text 'Dash' and a list of items, with 'Dashboards' highlighted by a red box. The 'Selected Items' panel has a list of items: 'Players', 'Match Performances', and 'Reports', all of which are highlighted by a red box. Between the two panels is a red arrow button pointing right. At the bottom of the interface are 'Cancel' and 'Save' buttons, with the 'Save' button highlighted by a red box.

6. To Add User Profiles : System Administrator

The screenshot shows the 'New Lightning App' configuration interface for 'User Profiles'. The title is 'User Profiles' with the subtitle 'Choose the user profiles that can access this app.' Below this are two panels: 'Available Profiles' on the left and 'Selected Profiles' on the right. The 'Available Profiles' panel has a search bar with the text 'System administrator' and a list of items, with 'System administrator' highlighted by a red box. The 'Selected Profiles' panel has a list of items: 'System Administrator', which is also highlighted by a red box. Between the two panels is a red arrow button pointing right. At the bottom of the interface is a 'Save & Finish' button, which is highlighted by a red box. A red arrow points to the 'Save & Finish' button.

7. Click Save & Finish.

Milestone 5 : Fields & Relationships

Activity 1 : Create Custom fields for Player object

1. In your Salesforce org, click gear icon on the top left and select Setup to open Setup.
2. Click the Object Manager tab. If you don't see it, enter Object Manager in the Quick Find box.
3. From the object manager page, In the Quick Find box, Search for the custom object you just created : **Player**
4. From the sidebar, click Fields & Relationships. Notice that there are already some fields there. Those are the standard fields.
5. Click New to create a custom field. Tip: Before creating a new field, do a quick search to make sure a similar one doesn't already exist.

Next, choose a data type as Text. Choosing a data type helps you format the field input

7. Click on next.

8. Data Type : **Text** Field Label: Player Name

Field Name : Auto Populates

Length : 50

Click on Next → Next → Save and new.

9. Repeat the Same steps for remaining fields

- Data Type : **Text**
Field Label: Player Number
Field Name : Auto Populates
Length: 3
Click on Next → Next → Save and new

Data Type : **Formula**

Field Label : AVG Score

Field Name : Auto Populates

Formula Return : **Number**

Formula : IF(
Matches_Played__c > 0,
Total_Runs__c / Matches_Played__c ,
0
)

The screenshot shows a formula editor with two tabs: 'Simple Formula' and 'Advanced Formula'. The 'Simple Formula' tab is selected. At the top, there are two buttons: 'Insert Field' and 'Insert Operator'. Below these, the text 'AVG Score (Number) =' is displayed. A large text area contains the formula: `IF( Matches_Played__c > 0, Total_Runs__c / Matches_Played__c , 0 )`. At the bottom, there is a 'Check Syntax' button and a status message: 'No syntax errors in merge fields or functions. (Compiled size: 130 characters)'.
